

WHEELS

RIDE ON: The 2016 Chevrolet Volt was recognized April 15 with the 2016 Green Car Award at the recent Green Living Show in Toronto. The Canadian Green Car Award recognizes vehicles, widely available in Canada, that combine impressive environmental attributes with strong mass-market appeal, as a result, the assessments included both "objective" criteria, such as fuel economy, emissions and price, and the judges' evaluations of performance, driving experience, value, features and "green" qualities. Those environmental benefits not only included fuel efficiency and emissions but also the use of sustainable or recyclable materials and measures taken by manufacturers to green their operations.
