Crossing Mill

In the April 28, 2016 edition of *The New Tanner* we featured this photo by Esther Taylor and ask if anyone recognized the kids. Several readers did, including Francis Marcoux the mother of Mary Francis Marcoux (seen at the front of the line). Mary is followed by her neighbours Steven Milne and Harry Lawson. Francis also identified the woman entering the Bell Telephone exchange as her mother Bea Chew. The crossing guard was identified by another reader as being Harry Edwards a former Police officer in Rockwood. - File photo

BEAUTIFUL BIRDS: For the first time ever, an Acton resident has been seeing regular visits by two different Oriole species, the Baltimore and the Orchard Oriole. Orioles, which usually feed high in trees can be easily lured to backyard feeders. - Martin Van Opstal photos
