## Fire Department responds to signs of smoke, fire

Where there's smoke, there's usually fire.

On April 26, at around 7 p.m., fire fighters responded to the report of a possible structure fire on Stevens Cres. On scene staff met with the neighbour who advised that a smoke alarm was heard sounding and opened the front door to see if anyone was inside, and when called out no one answered.

Upon entering the home, the crew reported light smoke conditions and found the cause to be a pot on the stove. The stove was turned off and crews vented any smoke from the house. No occupants were found inside the home and no smoke or fire damage was noted inside.

The home was left in hands of the Halton Regional Police until they could locate the own-

On April 29, around 8 p.m., firefighters responded to the report of a possible chimney fire on 17 Sideroad. On scene staff could see light smoke coming from the chimney between the mortar and 18 inches below the top.

An interior check was completed with no heat found but an odour and light haze of smoke became visible.

Fire staff checked the chimney using a ladder and found a large amount of creosote buildup. A further check was done on the second floor and attack space and there were no issues found.

The homeowner was advised not to burn in the fireplace due to the deteriorated conditions of the chimney.
