## Some say funerals are for the living; so is organ donation.

People come to us all the time for guidance prearranging their funerals, because like a will, or insurance, they're concerned about what they're leaving behind, and want to do the right thing. Nothing could be more thoughtful than organ and tissue donation, and prearranging is the perfect opportunity to confirm that decision. After all, out of all things you leave behind, how much of it matters as much as life itself?
