

**... Lend Me Your Ears**

**NOISES AND YOUR SLEEP**

Noise does not have to be loud to be harmful, it could take as little 60 decibels (the level of a quiet air conditioner) - to prod us from deep to superficial sleep without our knowing it, interrupting R.E.M. Cycles and leaving us to face the day fatigued and unfocused.

Sleep deprivation from various noisy sources has been blamed for the thousands of highway and industrial accidents each year. The Hearing Clinic specializes in noise alleviating ear plugs, for more information please call today.

For more information feel free to call...
