Black Bonspiel enters second week at JET

The second week of Georgetown Little Theatre's first show of the season, W.O. Mitchell's *The Black Bonspiel* of Wullie MacCrimmon, runs Nov. 9-13 starting at 8 p.m. at the John Elliott Theatre.

Wullie MacCrimmon, a shoemaker in the 1930s foothills town of Wild Rose, muses aloud that he would give anything to skip his curling team in the MacDonald Brier. Suddenly, the Devil (a travelling salesman who deals in wholesale souls and retail sin) appears and makes him an

offer. Wullie makes a counter offer, and one of the greatest matches in curling history is on. *The Black Bonspiel*. When the Devil appears with his curling team Lizzie Borden, Judas Iscariot and Macbeth Wullie and his team are in for one hell of a match. And Wullie's future depends on it!

For tickets call the JET Box Office at 905-877-3700 or online at www.haltonhills/theatre. Prices are \$24 (Adult); \$20 (Seniors 60+) and just \$5 for students with ID.

Q: I was driving home from work the other day when I was hit by a car that tried to run the red light. My car was totaled but I was uninjured. My passenger was badly shaken up and screamed in horror. The problem is that now I am having nightmares and I get very anxious when I am driving. I keep hearing that scream in my head. I need to be able to drive. Please help me!

A: It sounds like you are experiencing classic symptoms of PTSD, Post-Traumatic Stress Disorder. PTSD is a psychological condition that is triggered by experiencing or witnessing a frightening event. The symptoms may include flashbacks, nightmares, severe anxiety and uncontrollable thoughts about the event. PTSD will often trigger memories of sounds, tastes, and a looping of the experience.

PTSD is not an unusual reaction to a motor vehicle accident (MVA). MVAs are often experienced as trauma, and result in PTSD, grief or fear. Often the victim will experience all three. Treatments for these issues are clearly different, but they can be treated effectively. The sooner counselling begins, the more effective the treatment. The issue for the individual is often the cost and availability of counselling and many people do not know that car insurance will often cover the costs of counselling.

Although your motor vehicle insurance may cover the costs of counselling, it is frequently difficult to find a therapist who is licensed under the Health Claims for Auto Insurance board (HCAI). If the therapist is not licensed, the therapist cannot receive payment from your auto insurance. Obviously, HCAI does not license individuals who do not have the appropriate skills or training to provide the service needed. The process to be licensed by HCAI is neither quick nor inexpensive.

Fortunately for you, Dr. Elayne Tanner is licensed under HCAI and when counselling is approved, she can submit a treatment plan and can bill your auto insurance directly. If you have suffered an injury or loss from an MVA that has left you experiencing sadness, grief, fear, insomnia, headaches or jaw pain from clenching your teeth (TMJ), stress or anxiety or any resultant psychological injuries, please call to book an appointment so that we can help you return to your pre-accident functioning as soon as possible.

Q: What are zoning by-laws and how do they affect my property?

A: The town is divided into different types of zones. Each zone has rules that stipulate the type of building allowed on the property and how it may be used. These by-laws also specify where buildings and other structures may be located, as well as lot size allowed, acceptable dimensions for both structures and lots, parking requirements, building and fence heights and setbacks from the street.

It is important to know the setback dimensions in your area if you are building a new house but also if you plan to add any structures to your existing home. There may be setback rules for porches, decks, garages, and other structures you may be adding to your property.

In order to determine how the zoning by-laws affect your property you can contact the Town or go online and check on their website. As an Ontario Land Surveyor, I can help you determine how the zoning by-laws affect your project and provide surveying information about your property to make sure your project meets all applicable regulations.
