

Roku, other boxes drive 4K

From pg. 6
home rental or purchase are available in 4K Blu-ray mode, although do you want pay \$20 to \$30 for each disc?

This might be a reason to wait, because you're not missing out on a whole lot, said Swann.

Gadgets galore

While broadcasters have to build out infrastructure to deliver channels, peripherals and online services will likely get more use out of 4K screens, at least initially.

The thing that is going to drive 4K is all those little boxes, like the Rokus and the Google Chromecast that's what's going to drive 4K quicker than the broadcasters, said Carlyle.

The PS4 Pro just launched and it's built to support 4K gaming. The Xbox One S can show 4K Blu-rays. The Roku 4 can support 4K streaming, and the just launched Chromecast Ultra from Google makes it easy to get YouTube's 4K content onto your big screen.
