Police searching for fugitive facing more than 25 charges

The Halton Regional Police Service is asking anyone with information as to the whereabouts of a fugitive to contact police.

The Burlington Offender Management Unit is searching for 22-year-old Mohamed Ozor of Quebec, in relation to several charges stemming from a series of alleged commercial break and enters in April 2016.

Police allege Ozor committed three commercial break and enters on North Service Road in Burlington in April of last year. An alarm was set off during one of the incidents when officers arrived, Ozor was arrested inside one of the commercial premises in question.

Police added Ozor was on probation at the time of his arrest and was charged with three counts of Break and Enter, one count of Failing to Comply with Probation, and one count of Obstruct Police Officer.

According to a release sent Friday (Dec. 30), the accused has since failed to appear to court in answer to the charges and is now

wanted by the HRPS with an added charge of Fail to Appear in Court.

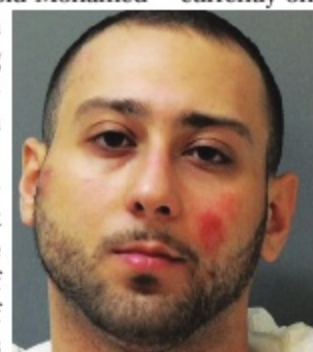

Ozor is also wanted in by Toronto police for six counts of break and enter and is currently on charge in Quebec for 13 more counts of break and enter.

The suspect's whereabouts are currently unknown but police said he is known to frequent Montreal, Burlington, Toronto and the surrounding areas. Ozor is described as 5-foot-11, 220 pounds with black hair and brown eyes.

Police are asking anyone who may have seen this person or has information that would assist investigators in locating him are encouraged to contact Detective Constable Bulbrook from the Burlington Criminal Investigations Bureau at 905-825-4747 ext. 2346.

Tips can also be submitted through Crime Stoppers at 1-800-222-8477 (TIPS), online at crimestoppers.com, or by texting Tip201 with your message to 274637 (crimes).

Many people believe that incontinence; the involuntary loss of urine, is a normal occurrence after childbirth or aging. Continence concerns are common but **N**o **m**l

Stress Incontinence (SI) refers to leakage that is noticed during a cough or sneeze, when laughing, or during strenuous activities like soccer, jumping jacks, or other aerobic activities. Sometimes women get the sudden and urgent need to get to a bathroom. Urge Incontinence (UI) is the loss of urine that is accompanied by this sudden, urgent feeling.

Leakage may have started off with minimal and tolerable amounts of leakage that occurred with a cough or sneeze, but then leakage can accelerate to amounts that are substantial enough to wear protective padding, continence garments or simply just avoiding activities that were once enjoyed.
