

The Friends of the Halton Hills Public Library are ready to kick off spring once again with its popular event, Caddystacks 2.

Caddystacks 2 makes way into Halton Hills Public Library

The Friends of the Halton Hills Public Library are ready to kick off spring once again with its popular event, Caddystacks 2.

On Saturday, April 1, the Georgetown Branch will open its doors for a special, fun-packed day and evening of mini-golf and more. This one day of fun for the community is the principal fundraiser for the Friends of the Halton Hills Public Library.

From 10 a.m.-4 p.m., adults, teens and kids can play mini-golf around the library shelves as part of the Family Open.

In the evening, adults can enjoy The Masters: a social event to remember, both for its uniqueness and its importance to the community.

From 7-9 p.m., adults can practice their putting skills while enjoying food.

The evening also includes a silent auction.

Mark Rowe, Chair of the Friends of the Library, is hoping the community will enjoy the day even more than last year.

Our community has always been so supportive of our library, he said. The event was such a great success last year with the terrific food, the golf, and the opportunity to get out and socialize with friends after a long winter. People can experience a day of fun while knowing that the proceeds go towards literacy programming and improving library spaces for everyone to enjoy. For the Family Open, tickets are \$5. For the Masters, tickets are \$50.

All tickets are available at the library for purchase.

TRUCKING STRATEGY STUDY

TOWN OF HALTON HILLS • ONTARIO • CANADA

Notice of Study Commencement

About the Study

The Town of Halton Hills is commencing a study to develop a long-term Trucking Strategy. The Trucking Strategy Study will explore opportunities to support a more safe and efficient approach to managing trucking town-wide that supports economic and employment activities, while balancing the needs of the community.

The study is anticipated to be completed by the end of 2017 and will address the entire Town of Halton Hills. The Town has retained WSP | MMM Group to support the development of the strategy which will build upon work previously completed in Halton Hills including, but not limited to, the Town's 2011 Transportation Master Plan and the 2014-2018 Strategic Action Plan Priorities. The strategy will be developed to achieve the following objectives:

- Develop a long-term strategy for safe and efficient truck routes and considers the road maintenance and safety needs of the Town;
- Identify transportation solutions and infrastructure improvements to support truck traffic;
- Engage, consult, and educate residents, businesses, and other stakeholders; and
- Explore opportunities for roads to safely accommodate all modes.

Over the course of the study, the Town will consult and engage with residents, businesses and stakeholders to help identify the issues, opportunities, and challenges for developing a trucking strategy for the community. The input that is gathered will help develop solutions that could ultimately support the redirection of truck traffic away from our downtowns and urban areas.

How can you get involved?

There are a number of ways that you can get involved. We want to hear your thoughts on the future of trucking in Halton Hills. Please review the following opportunities for engagement and select those that would meet your schedule/preferences:

- Complete the online survey located at: <https://www.research.net/r/HaltonHillsTrucking>
- Join us at one of the two public open houses on either May 23rd & 24th. Details of the PIC will be posted on the Town's website: <http://www.haltonhills.ca/transit/TruckStrategy.php>
- Provide your comments directly to the study team: haltonhillstrucking@mmm.ca

If you would like to receive more information about the study please contact either of the study contacts listed below.
