

Georgetown Lawn Bowling Club welcomes you to open house

The Georgetown Lawn Bowling Club throws open the doors for its annual open house on May 27-28 from 2-4 p.m.

Club members are looking forward to greeting interested visitors, showing them around the facilities and even taking in a mini-game of bowls. There will be refreshments too.

Lawn bowling is number 50 on Participation's list of activities for Canada's 150 birthday celebration, so come on out and try the sport.

Those attending the open house, who would like to try our game, should wear appropriate footwear (flat soled shoes work best) and comfortable clothes that allow for movement. After a short overview, visitors will be able to get on the greens and play.

Visitors will very quickly see that this game plays very differently from bocce or five-pin bowling and is much more like curling or chess on grass with lots of strategy, skill and fun thrown into the mix.

Over the season we have open bowling for our members on Monday, Tuesday and Thursday evenings starting at 7 p.m. On Tuesday evening prior to bowling, we have a B.B.Q. with the last Tuesday of the month set

aside for a pot luck supper.

We have three Jitneys a year on the holiday Mondays: Canada Day, August Civic Holiday and Labour Day. They are usually well attended and a lot of fun is had by all.

On the competitive side, we have eight tournaments a year which are with local and out of town clubs. We have four ladies only triples tournaments on Wednesdays, and three mixed pairs and triples, either on Saturday or Sunday and our men's and ladies club championship.

Our doors are always open to new members who are always made very welcome by our friendly bowlers. This year will be our 109th of operation, a fact of which we are very proud

Lawn bowling has changed. Just like its first cousin curling, it is a fun way to stay fit and meet friends. It also requires more skill than you think. You don't have to wear white. It is growing in popularity across Ontario because you don't need special equipment; it has a low cost of membership and is a whole lot of fun.

Come on out and check us out. We are in Downtown Georgetown at the corner of William and Edith Sts.

GEORGETOWN DAYCARE CENTRE AND NURSERY SCHOOL INC

Enriching the lives of Children Since 1985.

Stop living in the statistics. Physiotherapy can help

ERAMOSA EDA PHYSIOTHERAPY

- It is well known that almost half of all pregnant women and 25% of postpartum women suffer from pelvic and/or low back pain
- 1 in 2 childbearing women will suffer with some form of pelvic dysfunction, including pelvic pain, incontinence and prolapse.
- Over 40% of women experience Urinary Incontinence during their first pregnancy and up to 25% of women after their first pregnancy will experience altered fecal continence.
- Like incontinence, prolapse is common, with 1 in 2 women experiencing some degree of prolapse. Common symptoms that occur with prolapse are sensation of heaviness, irritation, pressure or pain.
- In a large study of women after their first pregnancy; 62% had pain with intimacy at 3 months post partum

Did you know that after pregnancy it is COMMON, but not NORMAL to suffer from:

1. Low Back Pain
2. Incontinence
3. Pelvic Organ Prolapse
4. Sexual Dysfunction
5. Pelvic Pain
6. Block Ducts and Mastitis
