

**FREE
Hearing Aid
Trial**

“Why do I hear but not understand?”

If you struggle to understand, you're not alone, in fact 47% of Canadians over the age of 60 have hearing loss. Your hearing difficulties could be caused by damaged hearing hair cells inside your inner ear (cochlea). When damage occurs in the high-frequency areas of the cochlea (where consonants are heard), speech may sound garbled and comprehension may become difficult. The right hearing aid could help you improve your comprehension.

FREE trial offer extended to October 31st, 2017

**21 Day
FREE
Trial**

Hear the difference hearing aids can make. Try the latest advanced or premium digital hearing aids for 21 days, risk-free. Our hearing experts will perform a **FREE** hearing assessment and fit you with hearing aids suited to your loss. There's no cost or obligation to participate.

How healthy is your shoulder?
Are you living in pain or discomfort?

While there are many causes of shoulder pain, be it a sports injury, trauma or joint weakness, it is important to have an accurate diagnosis so that the appropriate treatment is implemented.

Common medical diagnoses for shoulder pain include: rotator cuff tendonitis, rotator cuff tear, impingement syndrome, frozen shoulder, shoulder dislocations and shoulder separations.

Did you know?

Shoulder pain is one of the most common complaints treated at Eramosa Physiotherapy Associates through our Path to Improved Health.

Q: Do you have any tips on how to tame my dental anxiety?

A: It's a well-known fact in this country that large numbers of people are afraid of going to their dentists. Some people are so afraid that they neglect even the routine examinations and professional cleanings.

It doesn't have to be that way. Here are some tips to help reduce your anxiety. First, see your dentist before treatment is needed. Get to know your dentist and get comfortable discussing your concerns with the dentist and staff. Set your appointments for a stress-free time of day, not on your lunch hour or immediately after work. Second, have the dentist explain the dental treatment to you. Knowledge of the procedure should let you be more relaxed. Third, let your dentist and hygienist know that you're scared. It's nothing to be ashamed of and you're most certainly not their first patient to feel that way. Fourth, understand that times have changed. There are new methods of controlling and eliminating discomfort that weren't available until recently. Don't let dental fears keep you from having a healthy mouth and teeth.
