**Q:** Can I trust the internet for health information?

**A:** Our clinic's website [www.rossphysio.com](http://www.rossphysio.com) has a clinical library with hundreds of great articles written by registered physiotherapists (including yours truly) often with the scientific references noted for the article. There is a body map and a folder system so you can find what you are interested in quickly. You can also choose areas that you are interested in and be notified when a new article is added to that section of the site. A word of caution though – partner with a Physiotherapist during your rehab to avoid disappointing results or injury. Please take advantage of this information and stay well.
