“ Why do I hear but not understand? ”

If you struggle to understand, you're not alone, in fact 47% of Canadians over the age of 60 have hearing loss. Your hearing difficulties could be caused by damaged hearing hair cells inside your inner ear (cochlea). When damage occurs in the high-frequency areas of the cochlea (where consonants are heard), speech may sound garbled and comprehension may become difficult. The right hearing aid could help you improve your comprehension.

FREE trial offer extended to October 31st, 2017
