

ROBERT LITTLE

Many activities at Robert Little have made the month fly by for our students and staff. Though the snow left us pretty early, we have been enjoying watching the Earth wake up and can not wait for Spring. Our kindergarten and grade four classes have paired up with other Halton schools to expand our knowledge and activity with nature in our Outdoor Education Experience. Our students have been investigating what lives under rocks, and how to build tree shelters. Mrs. Jeddore's kindergarten class has spent much of the month outdoors with cold cheeks and inquiring minds. We are ready for anything to happen here at Robert Little.

Our staff are always looking for opportunities to integrate Science and Technology into the learning here at Robert Little. This month our grade five classes hosted their annual Human Body Symposium. All classes and families were invited to come in and tour the projects. We had an opportunity to learn so much from our grade five experts. Did you know the effects of smoking on the human body? Or how wearing makeup can affect the health of your skin? We learned so much from our students, and they certainly had fun learning about how organs in the body work during interactive lessons with Mr. Cousineau and Mr.

Vande Kemp.

Each class in the school has been deepening their investigations around science when a real Scientist comes to the school to help us learn more about our latest curriculum. We are so grateful for the support of Superior Glove as they have funded each of our classes so that they are able to enjoy this experience this year. We have a few more classes awaiting their visit. We are so joyful that Superior Glove supports our children in this fun and important in-school field trip.

Also this month, we danced our sillies out at our annual Dance-a-Thon led by Mrs. Burland

and teacher volunteers. Students—and teachers—could not wait to wear white and accessorize with glow sticks on our glow in the dark dance floor. We are still counting up the funds, but this does look like one of the best fundraisers in a few years. Thank you to our Robert Little community for all your support.

With all the activity and busyness of the month, it was wonderful to practice and participate in mindfulness with Ms.

Hunninck, Ms. Cope-land and the kindergarten Class during their yoga time. We teach our stu-

dents to take purposeful moments to clear their mind, take deep breaths and focus. Namaste.

SACRED HEART

We have had a busy few weeks at Sacred Heart. We would like to thank all our volunteers for preparing our delicious pancake lunch on Shrove Tuesday. We are ended the season

of Lent this week with the celebration of Holy Week. Our grade seven/eight class is presenting the Stations of the Cross to help our school community prepare for Easter.

This month, our primary students had a visit from the Green Legacy program of Wellington County and were given the opportunity to plant tree seeds and watch them

grow. These seedlings will be returned to the Green Legacy Program and eventually the trees will be planted around Wellington County. We participated in the Jump Rope for Heart fundraiser for Heart and Stroke. Our students had a fantastic time participating in the skipping activities and were able to raise

over \$1,700! Our Chess Team and Basketball teams represented our school at the county tournaments and showed lots of school spirit. Our grade two students celebrated their First Reconciliation, and we thank Father Mark for his support and leadership with these students and in our school. Our grade eight students

visited St. James High School for their first taste of high school with an orientation session lead by grade 12 leadership students. We continue to except new registrations for next year for families wishing to have a faith-based education for their children. We wish everyone a very blessed Easter Season.

LIMEHOUSE

Spring is in the air at Limehouse with many important events coming up. Our E-waste and Scrap Metal Collection is fast approaching. On April 21 and 22 Limehouse volunteers will be available to help unload any e-waste or scrap metal that you can part with. The bins will be located at Tyler Transport on 379 Queen Street, open from 9 a.m. to 5 p.m. on Saturday and Sunday. We thank you in advance for any contributions you can make. On Saturday at noon, we will be serving free hot dogs, our Halton Hills Fire Department will be stopping by at 1 p.m., and the music band Wicked Truth will be performing at 3 p.m. We hope you can stop by and enjoy a bit of Halton Hills community cohesion. "Thank you" to our many volunteers who will be helping over both days. It takes many people to make this event a success.

This month our gym

turned into a Jungle Sport fitness area. It was wonderful to see all students from Kindergarten to grade five participate in adventurous activities such as wall climbing and zip lining. Our students have also started practicing skipping rope activities in preparation for our upcoming Jump Rope for Heart event on April 13. Our Battle of the Books Club has been busy reading in preparation for the competition at the Georgetown Public Library on April 4 at 9 a.m. We wish our readers the

best of luck.

A reminder that Kindergarten registration continues to be open for students in the Limehouse catchment. If your child was born in 2014, please stop by the school to pick up a registration package. Our school "thanks you" for your continued interest and on-going support. We look forward to continuing to share events with you through The New Tanner newspaper, our website at lim.hdsb.ca, and through Twitter @LimehousePS
