

# XINYI CANADA GLASS & GUELPH ERAMOSA

Xinyi Glass Canada will build its first float glass facility in North America right here in Guelph-Eramosa.

We're excited to show you what float glass manufacturing looks like, with a glimpse inside our state of the art manufacturing facilities. We're excited to share these pictures with you.

Float glass requires an advanced manufacturing process that's highly automated and exceptionally clean. We chose Guelph-Eramosa because it's near stellar post-secondary institutions that support technology transfer and research and development as we hire 400 local workers to operate the plant for us.

On a personal note, I'm looking forward to joining you in the Guelph-Eramosa community, as my family and I will be moving to the area.

As always, you can reach us at: [inquiry@xinyicanada.ca](mailto:inquiry@xinyicanada.ca)

- ✓ Advanced manufacturing
- ✓ Innovative technology
- ✓ Clean production
- ✓ Development of local skills
- ✓ Professional and managerial career development

The new facility in Guelph-Eramosa will help develop local skill and talent through effective technology transfer. In partnerships with the nearby post-secondary institutions, we want to create a community within Guelph-Eramosa that possesses these highly specialized skills. Creating and developing rewarding and highly skilled positions is crucial to ensure the long-term success of the plant's production of premium glass products.

We seek to attract and develop local candidates for the skilled manufacturing positions we're offering and build a specialized and skilled workforce here in Guelph-Eramosa. The jobs we offer will add to the 12,000 employees Xinyi currently employs world-wide and our employee job packages will be competitive.
