Volunteers help make WPEC unique

The WP Stewardship, Monitoring and Volunteer Programs at the Willow Park Ecology Centre in Norval have many opportunities to have fun while being active outdoors.

On Sunday, July 14, between 9 a.m. and 4 p.m. experience hands-on learning about Xeriscape and "Butterfly" Gardens. Come when you can, for as long as you can. Bring a picnic lunch or just a couple of hours. All are welcome but please register. Refreshments will be on hand.

You will have a chance to learn more about the both the butterflies and the plants that support their four-stage life cycle through physical projects of gardening and inventorying of the Willow Park Butterfly Gardens and its inhabitants. This will help us get ready for our Butterfly Day celebration on July 27 during Homecoming.

Attain insights into xeriscape

gardening as volunteers rework the Willow Park entrance with xeriscape garden features. Xeriscape gardens are created by pairing drought tolerant plants with other species needing the same amount of sun and moisture, and adding a variety of stone elements to hold in moisture and keep soil warm. Other projects may include tree planting, bridge painting and pathways resurfacing.

Other park events include: July 21, 1-4 p.m. where volunteers are needed to help during the Big Daddy Festival Raindate event including the Paddle-to-the-Sea boat race.

And on July 30-31 you can get trained and experienced in tree inventory projects alongside of the Ministry of Natural Resources Stewardship Rangers.

Register online at <http://www.willowparkecology.ca/volunteers.html>. Or call 905-702-9055.
