The way we were

Gas comes to Georgetown

Then Mayor John Armstrong (centre) is pictured in August 1956 for the inauguration of natural gas in Georgetown. The addition of this utility helped address the needs of the town's growing population that witnessed 198 per cent growth from 1951 to 1961.

CLIMBING FOR A CAUSE

For the fifth year in a row, local dentist Dr. Anoop Sayal, and his son, Arun, climbed the 1,776 steps to the top of the CN Tower in support of the United Way of Toronto. During the past five years, the pair has raised almost \$11,000. "I am proud to be able to raise money for such a worthwhile cause," said Sayal.

Wynne part of gas plant scandal

The Auditor General's report to the Ontario Legislature on October 8th finally gave us the true cost of cancelling the Oakville gas plant. The report leaves former Premier Dalton McGuinty's legacy in tatters.

But its repercussions continue to reverberate at Queen's Park.

After claiming for months that

it cost \$585 million to cancel the Mississauga and Oakville gas plants (as if that number might somehow be acceptable to voters), Premier Kathleen Wynne has now apologized to Ontarians for the fact that the actual cost has been shown to be over \$1 billion.

Premier Wynne hopes that this late expression of contrition is an acceptable response.

She hopes that voters will blame her predecessor for the waste and the cover-up.

She also hopes that by the time the next election rolls around, voters will have forgotten about the misuse of taxpayers' money to prop up five nervous Liberal MPPs, who feared losing their seats in 2011. She hopes that voters can't understand what one billion dollars is, and won't understand how it could have been better spent to benefit the people of Ontario.

She hopes she can "change the channel."

Premier Wynne overlooks four things.

She was a senior cabinet minister in the McGuinty government. She signed a key document related to the cancellation decisions. She was co-chair of the 2011 Liberal election campaign, along with Greg Sorbara. She was Premier while the Liberals deliberately understated the true cost of cancelling the gas plants.

Premier Wynne will not be able to evade responsibility for her role in this scandalous waste of more than \$1 billion.

This was a conscious, deliberate decision to place the political survival of the Liberal Government ahead of the interest of the people of Ontario. That is simply unacceptable.

The Liberals have lost their moral right to govern. They don't deserve to be in power, even for another day.

...

Ontario PC Party Leader Tim Hudak recently announced his new shadow cabinet, and he assigned me additional responsibilities within our caucus.

I continue to serve as our Critic to the Minister of Intergovernmental Affairs, and as First Deputy Chair of the Committee of the Whole House (assistant Speaker). Now I also serve as Critic to the Minister of Research and Innovation. I hope to continue to play a constructive role in all of these positions.

However, as always, the concerns and interests of my constituents come first. That will never change.

...

Congratulations to the members of the Rotary Club of Acton on 65 years of service to the community.

My wife Lisa and I were honoured to be invited to their celebration on October 19 at the Acton Town Hall Centre. Their motto, "service above self" says it all.
