

# Line-up of events is scheduled at Helson Gallery

Be sure to check out the exciting line-up of art and activities coming in November to the Halton Hills' Cultural Centre and Helson Gallery.

"I encourage residents to take advantage of these excellent opportunities to connect with local artists and to learn more about the arts in their community," said Mayor Rick Bonnette.

From November 12 to January 5, 'Tis the Season, a holiday show and sale featuring local artists and artisans will offer excellent opportunities to pick up one-of-a-kind gifts. The public is invited to Meet the Artists on November 23 from 2-4 p.m.

At the same time, noted artist Marlene Madole, will demonstrate watercolour technique in celebration of World Water-

colour Day. Madole, elected member and Past President of the Canadian Society of Painters in Water Colour (CSPWC), has been instructing art for over 17 years and her work has been extensively exhibited and collected. This free drop-in event is a unique opportunity to get up close and personal with the artistic process.

In the Helson Gallery on November 16-17, a special exhibition from the Canadian Modelling Association for Meccano and Allies Systems will delight young and old alike. The Art of Collecting showcasing paintings from the Helson Collection alongside those borrowed from local private collectors, also continues in the Helson Gallery until January 5.

## NOTICE OF PUBLIC INFORMATION CENTRE #2

### Halton Region Active Transportation Master Plan Study PR-2875A

#### Study

Halton Region has initiated an Active Transportation Master Plan to the year 2031 to develop the required strategy, infrastructure, initiatives and programs to promote non-motorized travel throughout the Region, as recommended in the Region's Transportation Master Plan (2031) – The Road to Change. The Region's objective is to create an Active Transportation Master Plan that is safe, affordable and sustainable.

Active transportation is any form of human-powered transportation, which includes walking, cycling, roller-blading and movements with mobility devices. An Active Transportation network includes sidewalks, multi-use paths, crosswalks, on-road cycling facilities, as well as recreational trails.

#### Process

The Active Transportation Master Plan is a study which defines existing problems/opportunities, considers and evaluates solutions, and will identify cycling and walking networks to the year 2031. A key outcome of the study is a list of active transportation projects that the Region can incorporate in its 20-year Roads Capital Program. This study is being conducted in accordance with the Municipal Class Environmental Assessment (EA) process (October 2000, as amended in 2007 and 2011).

The first round of Public Information Centres were held in June 2012 to present the study background, vision, guiding principles and problems/opportunities. Thereafter, a preferred active transportation strategy was determined taking into consideration comments that were received from the Local Municipalities, regulatory agencies and the public. A second round of Public Information Centres has been arranged to review and receive comments from the public on the proposed active transportation (cycling and walking) networks and supporting recommendations.

#### Public Information Centre Locations

Date	Time	Location
Tuesday, November 19, 2013	Drop-in: 6:30 p.m. - 8:30 p.m.	Milton Centre for the Arts (MinMaxx Hall) 1010 Main Street East, Milton, ON

This Notice first issued on November 7, 2013.

## Halton's 4th annual Real Estate Forum reinforces that Halton is an economic hotspot

Last year was a record setting year for industrial, commercial and institutional (ICI) development in Halton, with ICI development surpassing over \$1.2 billion in building permit value. On October 29, I joined industrial and commercial developers and real estate brokers from the Greater Toronto Area, along with Regional and Local Councillors at the Halton Real Estate Forum in Burlington. A key message voiced by Forum speakers was that with its ecosystem of leading companies and exceptional quality of life, Halton is indeed a location of choice – one of the best communities in which to live and work. Learn more at [www.halton.ca/ref2013](http://www.halton.ca/ref2013).

Gary Carr  
Regional Chair
