

Drives like a turbo. Saves like a hybrid.

First, we took the already stylish and fun-to-drive Jetta and made it more aerodynamic than ever. Then, we equipped it with our most innovative BlueMotion technologies to date, like a powerful turbocharged hybrid powertrain with a 1.4 TSI engine, 170 horsepower and class-leading torque. The result? The Jetta Turbocharged Hybrid. A car that proves not all hybrids are created equal.
