

### Clarification: Truck number quoted was a maximum

In the May 9 article, Town watching Rockwood quarry 'closely', it was stated that at least 26 heavy trucks an hour will travel on Hwy. 7 through Acton, from the site on Hwy. 7 at Sixth Line Eramosa.

According to Greg Sweetnam, Vice-President, Resources for James Dick Construction Ltd., the 26 is "a maximum number for a very busy hour in a year when we would be doing maximum production. The reality is that far fewer trucks would be on the road.

These trucks will (also) replace trucks from our Guelph quarry that currently use Hwy. 7, so the overall difference would be even less.

"In busy times the Hidden Quarry would add about 1-2% to the current traffic on Hwy. 7. In the winter this will be much less. In the late afternoons, evenings and on weekends and holidays when the quarry is closed there would be no extra traffic at all."

Sweetnam said to visit [www.theholestory.ca](http://www.theholestory.ca) for more info.

## HEARING SCIENCES

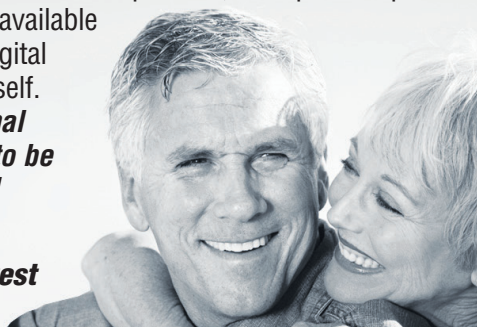

### Audiology and Hearing Aid Centre

#### Yes, we have INVISIBLE hearing instruments!

Over the last 3 years, hearing instrument technology has advanced so they are small enough to fit deep into the ear canal allowing for use during active sports. This is one of many tiny options available. For some patients, the open fit option is preferred. These miniature options are available in all price ranges of high performance digital instruments. Hear the difference for yourself.

***If you've forgotten what fair, professional service feels like, call us and prepare to be amazed! SATISFACTION GUARANTEED!***
