

Local ALS Walk marks fifth anniversary on June 1

By **GORDON ANDERSON**
Walk for ALS

The Acton/Georgetown 5th Anniversary of the Walk for ALS will occur Saturday, June 1st at Dominion Gardens Park in Georgetown.

This year's walk committee is planning another special day to celebrate the success of the past four years and continue to raise as much money for this devastating neuro-muscular disease.

Jeff Sutherland and Scott Murray, both Georgetown residents, are living with ALS. They are both on the Acton/Georgetown Walk Committee and have been and continue to be so impressed by all of the community support given to our local Walk for ALS.

In the past four years, our Walk for ALS has raised over \$740,000 due to the generosity of so many.

Jeff and Scott both agree that it is a combination of the local citizens and businesses that really make our walk the success it is. "Everyone assisting in our ALS Walk are volunteers and that ensures every dollar we raise goes directly to ALS Canada. With the generosity of local businesses, we run our event almost entirely by donations."

That ensures that more money goes towards the services provided to the families of ALS; new technology that allows ALS clients to continue speaking and conversing with family and friends; equipment and

subsidy loan program that allows an ALS client access to equipment at little or no cost; and for research into a treatment and a cure for ALS.

This year's walk is setting up to be another special family day. There will be live entertainment, face painting, lots of food, a special anniversary cake, and a huge silent auction with over 100 items for bid.

Auction items include: signed NHL jerseys, tickets to various sporting events, spa packages, jewellery and several golf packages,

including Pipers Heath and Glen Abbey! In honour of our fifth anniversary, a hot tub will be part of the Silent Auction this year.

Registration begins at 9 a.m. at Christ the King High School, with the silent auction running from 9 a.m. until the end of the four-kilometer walk. The Walk begins at 10:45 a.m. Please go to www.walkforals.ca.

"Help Make Moments Matter" and be sure to come and support this very worthy charity. Info: Mary Jo Knox, Volunteer Walk Coordinator, mknox2@cogeco.ca

**MEDICATIONS CAN
BE DANGEROUS TO
YOUR HEARING!**

Ototoxicity is the term for medication that can be hazardous to your hearing health. If you presently take medication, be sure to ask your physician about possible effects on your hearing. Keep in mind that combinations of prescriptions increase the risk of ototoxicity. If you suspect your medication could be ototoxic, or develop a ringing in your ears, report this to your physician. For more information, please call.

TOOTH TIDBITS

How much force does a human bite generate?

Your jaw muscles can close the teeth with a force as great as 55 pounds on the incisors and 200 pounds on the molars. Forces greater than 268 pounds for molars have been reported.

The most common non contagious disease is periodontal disease, such as gingivitis, or inflammation of the gums. Few people in their lifetime can avoid this kind of periodontal disease.

Is it a genuine smile?

When someone really feels a smile, the muscles in the upper

part of the face contract involuntarily. The muscles around the eyes tighten, the forehead may wrinkle a bit and the smile usually lasts longer than a false smile. When we try to fake a smile we tend to press our lips together, tighten the corners and push up the lower lip. A false smile is often asymmetrical and is not accompanied by a movement of the muscles around the eyes and typically ends abruptly!

For a smile you won't wanna fake, give our office a call! We build beautiful smiles!

Creating confident smiles since 1982.
