

McVeigh triumphs

Georgetown resident Aidan McVeigh gets his arm raised in victory over a crestfallen Wyatt Whalen of New Brunswick after winning the gold medal in the novice boys' (Grades 3-4) 41-kg. division at the Canada East Wrestling Championships held in Milton recently. This was the first year of competitive club wrestling for McVeigh, a Holy Cross Elementary School student who trains with the Ahkara of Champions club in Mississauga.

SMILE ADVICE

There is just something about a smile. You see someone with a big goofy smile or even the faintest hint of a grin, on his or her face and you can't help but smile back; a smile is something you always want to return to sender. It doesn't matter who's smiling, either it is your best friend, your spouse, a baby, a dog, the supermarket cashier or a movie star. A smile is infectious in the nicest way!

Best of all, a smile is 100 percent natural. Babies smile almost from birth. Infants (even some as young as two days old) tend to smile at faces. By the time they are one year old, babies are able to recognize the important people in their lives, and many have a special smile for these individuals. And smiling is not necessarily something we learn by imitation. According to Frank McAndrews, psychology professor at Knox College in Galesburg, Illinois, babies who can't see, smile, just like everyone else. It seems our faces were made to smile!

So next time you see someone without a smile, give them one of yours, because no one needs a smile more, than he has none to give.

WE BUILD BEAUTIFUL SMILES!
