

Bach Chorale presents Vivaldi's Four Seasons on Saturday

Looking for some excitement this Saturday night? Well, look no further! The Georgetown Bach Chorale, under the leadership of Ron Greidanus presents Vivaldi's Four Seasons and an all-Vivaldi concert.

The Four Seasons violin duel will be taken up by two stellar violinists— Baroque Friesian superstar Edwin Huizinga and Tafelmusik's virtuoso Chris Verette.

This auspicious ensemble is fresh from a performance in New York at Carnegie Hall this past

Monday evening.

The Chorale and period orchestra will also feature rarely heard music for double choir and strings. Although religious in text, this music is more operatic in ex-

ecution. 'Lauda Jerusalem' for example, features two sopranos (Celine Moore and Jane Potovszky) as they battle it out with breathtaking high pitches and coloratura as the choir punctuates this exciting display.

Don't miss this evening to be remembered— Saturday, March 22, 7:30 p.m. at Knox Presbyterian Church, Georgetown.

Tickets are available at Foodstuffs, Pat's Prime Cuts and Deli, both in Georgetown, and at The Holland Shop in Acton. Tickets

are \$35 (\$10 for students).

Bring in Spring royally with Vivaldi's Four Seasons and a night to remember!

CHECK YOUR CHIMNEY

Remember to check your chimney regularly for signs of corrosion or deterioration.

Have all chimneys cleaned and inspected at least once a year.

... Lend Me Your Ears

By Cory Soal R.H.A.D.

GETTING USED TO NEW HEARING INSTRUMENTS

Part 1

A patient who has never worn hearing instruments before, or is wearing a new type or circuit may go through a period of adjustment. The following are suggestions to help you through that adjustment period:

Don't get discouraged. It may take time to realize the benefit of your hearing instruments. You have been hearing through a damaged system that has delivered distorted signals to your brain. Now the sounds you are being exposed to are louder and different than what you are used to. In time, your brain will adjust to the new signals it is receiving.

When you first start wearing the hearing instruments, you will suddenly hear sounds you were previously unaware of. Many you will recognize as sounds you used to hear before you had a hearing loss, and others will have to be identified for you. These sounds will seem bothersome at first because you are not used to hearing them. In time, like those with normal hearing, you will unconsciously block out these daily sounds.
