# Region extends brush collection to the rural area

Starting Monday, May 5, Halton Region will extend its special bulk brush collection to the rural area.

It is also waiving tipping fees for brush at the Halton Waste Management site from May 31 to June 30.

"Halton Region continues to work closely with the local municipalities to implement a coordinated ice storm related bulk brush collection program," said Gary Carr, Regional Chair.

"As the extended program will not start until May 5, staff will work with the local municipalities to help with the set-up of temporary transfer sites, if required, within non-serviced areas

so that residents and contractors can drop off brush at no charge."

Homes in the non-serviced yard waste collection areas of Halton must place oversized brush along the roadside. Residents must ensure that the brush does not block the road and is not placed inside ditches. It must be placed out no later than the first day of the scheduled collection week. Branches are to be no longer than six feet in length and placed in piles no more than 20 feet long and four feet high with branches no thicker than three inches in diameter. The collection schedule in Halton Hills is:

• May 26 to June 6, 2014 – Halton Hills, Wednesday Area 1

• June 9 to June 13, 2014 – Halton Hills, Friday Area 2

Residents who have bulk brush materials that are larger than three inches in diameter must make their own arrangements to have it collected and taken for disposal.

Storm-related brush debris and chipped materials can be dropped off at the Halton Waste Management Site by residents and contractors from across the Region free of charge until June 30. Info: dial 311 or visit [www.halton.ca](http://www.halton.ca)
