

HHS Mental Health Programs

The Halton Healthcare Services Mental Health Programs aim to provide high-quality, client-centred care through a seamless continuum of services extending across the HHS Hospitals and into the communities of Oakville, Milton, and Halton Hills. Working in partnership with community agencies, hospitals, schools, and primary care physicians we offer services across the lifespan with specialty resources dedicated to children, youth, adults and seniors.

Our interprofessional staff includes social workers, occupational therapists, nurses, peer support, nurse practitioners, child and youth counselors, pharmacists, dieticians, teachers, and psychiatrists. They will work closely with you and your family to understand and meet your needs.

Our services include psychiatric consultation and assessment, individual, group and family treatment, community outreach, emergency and crisis support, inpatient services, day programming, bridging support, and community education workshops.

For more information on the HHS Mental Health Program please log onto the HHS website – www.haltonhealthcare.com.

Georgetown Hospital Expansion

At 14,000 square feet the new Emergency Department (ED) at Georgetown Hospital (GH) is approximately three times the size of the previous department. Completed last year, the new ED welcomed its first patient on October 8, 2013. The expansion at GH also included space for the Hospital's first Computed Tomography (CT) scanner which began scanning patients in November 2013 – ensuring residents of Halton Hills have access to this essential service, close to home.

Renovations within the old ED to expand the Hospital's Diagnostic Imaging (DI) Department began in January 2014. This work will create a more functional layout and additional space - allowing for larger rooms, separate waiting spaces and separation from public traffic as an additional improvement to patient privacy. Redevelopment of this area also brings imaging rooms formerly located outside of DI together improving the overall efficiency of the department. Halton Healthcare Services looks forward to celebrating the project's completion in Spring 2014.

Volunteers: The Best Gift of All

In honour of Volunteer Appreciation Week, Cindy McDonnell, Chief Operating Officer (left) of Georgetown Hospital presented Marie Carney, the President of the GH Volunteer Association (right) and the GH Volunteers a stepping stone in this year's theme: *Volunteers the Best Gift of all – 2014*, etched in the rock. The stone will be placed by the Volunteer Fountain at the main entrance of the Hospital.

Special Accolades

Congratulations to Vi Norton, our GH volunteer for receiving the 2014 *Cheers to Volunteers Award*. Vi has been volunteering at Georgetown Hospital since March 2011. Vi has worked in the Fracture Clinic at GH since 2012 where she helps with the flow of patients as they navigate through the busy clinic. Sponsored by Volunteer Halton, this award recognizes the efforts of three volunteers from Burlington, Milton, Halton Hills, and Oakville.

Halton Healthcare Services Hosts Local Food Expo

HHS is hosting a Local Food Expo on Wednesday June 4, 2014 from 9:00 am to 3:00 pm at Oakville-Trafalgar Memorial Hospital Auditorium. Come out and learn about the local food chain in Ontario, taste samples, purchase sweet treats and talk to the growers and manufacturers themselves.

Stay connected! For more information and to subscribe to our eNewsletter, visit www.haltonhealthcare.com.
