Paint your room at the swipe of a screen

Bergsma's Paint & Decor is excited to announce the arrival of the new PPG Pittsburgh paints Voice of Color, interactive colour display unit. Featuring the PPG Colour Work Station, with a touch of the screen you can view colours, in different room scenes. Try a darker colour on the ceiling or trim, it's easy to visualize!

The Harmony collection offers handpicked palettes that provide harmonious colour combinations. With colour groupings like neutral territories, spice of life, and blue persuasion, it's easy to co-ordinate colours for your home.

"Bergsma's is always looking for new and exciting things to offer our customers and this is a great fit to our collection of products and services," said owner Yvonne Bergsma.

Stop by Bergsma's, in the Georgetown Market Place mall and try your hand at painting a room, with just a swipe of the screen.

Yvonne Bergsma of Bergsma's Paint & Decor displays the latest technology in their store. Customers can pick a colour and see what it will look like in their home, using the PPG Colour Work Station.
