Halton Hills firefighters recently responded to a report of a oven fire on Eaton St.

The homeowner told them they were using the self-cleaning device when a fire started and the stove began smoking on April 28.

Staff removed the stove from the home and found that dog food and insulation had been burning. It is believed that mice had hoarded the food and when the stove went into cleaning mode, igniting the material. There was no other damage to the home and staff deodorized the home for the resident.

Firefighters responded a grass fire in the Trafalgar Rd.-Five Sideroad area about 4:50 p.m. on Monday, April 28. Upon arrival, firefighters found a fairly large grass fire burning and several people trying to put it out. After the fire was extinguished staff determined that the cause of the fire was dumped ashes.

Chances are you're paying too much income tax because of your investment portfolio.
