THE 2015 MAZDA6: IS IT ART OR INNOVATION?

When function and form are treated as one, engineering is elevated to an art form. The all-new Mazda6 is the product of engineer and designer working in unison, from start to finish, daring to reimagine the automobile as a whole. It is the true definition of the modern sports sedan, because contrary to what convention may think, beauty is more than skin deep. And performance is more than an emblem. They're everything underneath.
