

**NOTICE OF STUDY COMMENCEMENT**

**CLASS ENVIRONMENTAL ASSESSMENT STUDY**

**Ninth Line (Regional Road 13) Transportation Corridor Improvements  
Highway 407 to 10 Side Road (Regional Road 10),  
Town of Halton Hills  
PR-2876A**

**Study**

Halton Region is initiating a Class Environmental Assessment (Class EA) study to consider a wide range of options for transportation corridor improvements to satisfy future travel demands to 2031 on Ninth Line from Highway 407 to 10 Side Road in the Town of Halton Hills. In order to best address travel demand along Ninth Line, a number of road improvement alternatives will be examined as part of the study including widening of the roadway, cross-sectional improvements, over-all traffic operations, as well as the impact of such improvements on the social, cultural, economic and natural environments.

**Process**

The notice signals the commencement of the Class EA, a study which will define the problem, identify and evaluate alternative solutions, and determine a preferred solution in consultation with the Town of Halton Hills, regulatory agencies, and the public. The study is being conducted in compliance with Schedule C of the Municipal Class Environmental Assessment (October 2000, amended 2007 and 2011), which is approved under the Ontario Environmental Assessment Act.

Public and review agency consultation is a key element of the Class EA process and input will be sought throughout this study. At this time, it is anticipated that two (2) Public Information Centres will be held. Details regarding the Public Information Centres will be advertised as the study progresses. Upon completion of the study, a comprehensive Environmental Study Report will be prepared and placed on the public record for a minimum 30-day review period. The document will detail the planning process and the preferred alternative including how the public and agency input was received.
