

NOTICE OF STUDY COMPLETION MISSISSAUGA ROAD / OLD MAIN STREET, BUSH STREET, OLDE BASE LINE ROAD AND WINSTON CHURCHILL BOULEVARD

The Study

The Region of Peel has completed the Schedule 'C' Municipal Class Environmental Assessment (EA) to develop a road design that addresses safety, drainage, and pavement deficiencies on Mississauga Road / Old Main Street, Bush Street, Olde Base Line Road and Winston Churchill Boulevard. The approximate limits of the project area are illustrated on the map.

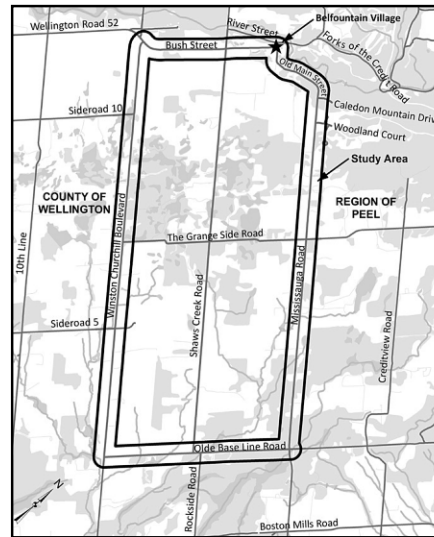

The Process

The project team received input from interested stakeholders, the public and agencies at an Open House, two Public Information Centres, three Community Working Group meetings, and numerous agency and stakeholder meetings. The team evaluated road improvement alternatives, assessed the potential environmental effects of the proposed improvements and developed reasonable means to mitigate any adverse impacts.

Key Elements of the Recommended Design

The study recommends:

- A rural cross-section with paved shoulders and ditches for parts of Bush Street and Olde Base Line Road
- A semi-rural cross section with paved shoulders, mountable curbs and underground storm sewers for the remainder of the study area
- Parking and a sidewalk through parts of Belfountain Village
- Modest profile adjustments to improve sightlines

Environmental Study Report

An Environmental Study Report (ESR) has been prepared to document the planning and decision making process undertaken for this study. The results of the study will be available for review for 30 calendar days starting June 30, 2014 and ending July 29, 2014. The ESR is available for review at the following locations:
