Four kitchen fixes for great compliments

Nothing reinvigorates a home like a newly remodeled kitchen, but it's true that the costs to completely renovate this room can add up quickly. In fact, according to the National Kitchen and Bath Association (NKBA), kitchen projects can range from less than \$20,000 to more than \$100,000, so it's best to think of renovating this space as an investment.

Here are four "must-do" updates that ensure your remodeled kitchen will earn compliments from anyone who enters.

1. Faucet Facelift

The sink area is among the most hard-working of kitchen spaces, and the faucet in particular, gets the most grueling daily work-out. Because of its constant use, updating the faucet will immediately improve the function and look of your prep space.

2. Amp Up Accessories

Much like fashion, accessories can make a room. Think of hardware as the finishing touch to make your space feel polished, but

also serve a purpose. To start, easily answer the age-old question: "Where's the dish towel?"

3. Enhance the Lighting

Lighting is a critical element in kitchen design, both for its decorative and functional benefits. For an instant update, install pendants over an island or countertop where the low-hanging fixtures won't interfere with traffic flow.

4. Add Personality

After tackling your kitchen updates, be sure to treat yourself and your kitchen to something nice. You can also jazz up your kitchen with lively artwork.

Before starting demolition on your kitchen remodel, make sure the design is a reflection of you. By following these steps, not only will you have a kitchen that complements your lifestyle, you will also draw plenty of compliments from family and friends.
