## Manage your home warranty online

Most newly built houses and condominiums in Ontario come with a mandatory warranty. It begins when you sign the purchase agreement and lasts for seven years from the date of first possession. This means that if you are the owner of a newly built property, you have warranty protection guaranteed by Tarion Warranty Corporation.

At Tarion.com, a portal called MyHome is the simplest way to manage your warranty. As soon as you take possession of your home, you can register. The service allows homeowners to securely submit and review forms and view official correspondence. Tarion will send you automatic email alerts so you don't miss any important deadlines. This is crucial, because timing is essential when submitting warranty forms.

### LEARNING NEW STRATEGIES

A diminished social life is one of the most difficult aspects of age related hearing loss. Many people avoid drawing attention to their hearing loss by having fewer social contacts when it becomes difficult understanding what is being said. The result is an altered and lonely existence that family and friends may mistake for dementia.

Learning new strategies to cope with hearing loss could go a long way to restoring confidence and improving communication. The Hearing Clinic recommends the following: Inform people of the hearing loss so they may modify their speech; eliminate background noise; watch the speaker carefully and sharpen natural lip-reading abilities; ask the speaker to repeat what was said if necessary, and above all else; have your hearing thoroughly tested and properly fit with one of today's modern hearing instruments. Contact The Hearing Clinic if you or someone you know needs assistance.
