Super safe

Volvo Cars' all-new XC90, which will be revealed this month, will offer the most comprehensive and technologically sophisticated standard safety package available in the automotive industry. The new technologies will take the company a significant step closer to its vision that no one will be killed or seriously injured in a new Volvo car by 2020. The standard safety package on the all-wheel drive, seven seat, luxury SUV will include two 'world's first' safety technologies: a run-off road protection package and auto brake at intersection capability.
