

# Sworden returns for Williams Mill exhibit

The Williams Mill Visual Arts Centre presents "Algonquin Spirit" featuring artist Philip Sworden.

The Solo Art Exhibit is being held at the Williams Mill Gallery from Aug. 27 to Sept. 14. There will be an opening celebration on Saturday, Aug. 30, 1-4 p.m. The artist will be in attendance Saturday, Aug. 30 and Sunday, Aug. 31.

The Gallery is open noon to 5 p.m., Wednesday through Sunday, and open Saturdays, 11 a.m. to 5 p.m.

This is the third exhibition at the Williams Mill of Philip Sworden's

paintings of Algonquin Park. His popular landscapes depicting the scenery found in the Park and the surrounding countryside are stunning. The exhibit provides viewers with scenes capturing the mystery and spirit of this unique Ontario space that we cherish.

Roy MacGregor, noted Tom Thomson author, has described Philip Sworden as "a true Algonquin artist".

# Artists wanted for new Town exhibit

Local artists may showcase their work in the Sisnett Lobby of the Cultural Centre this fall with Artists Among Us on view Sept. 3 to Oct. 26.

Artists may submit two recent works in any media to a maximum size of four feet in any dimension. Works may be offered for sale but it is not a requirement of exhibiting.

The show will be accompanied by an Artists Among Us event held in conjunction with Culture Days, Sept. 27

and 28, 1-5 p.m. Artists are invited to demonstrate their techniques and media to the public in an informal drop-in setting in the lobby of the Cultural Centre. There is no fee to participate in this event and you may commit to only one day rather than both Saturday and Sunday.

Did you think incontinence was just a "woman's issue"?

Learn how physiotherapy can help men with Pelvic Health, including incontinence and pain after prostate surgery.

Incontinence can be dramatic following prostate surgery or radiation treatment. Men are alarmed by the immediate decrease in their quality of life that comes with being reliant on urinary pads throughout the day.

Did you know?

The scientific research clearly shows that men who receive physiotherapy BEFORE and AFTER prostate surgery gain control of their bladder quicker.
