

Caring where Care is Needed

Picture a family with a chronically ill child, picture the parents taking care of the child at home, day after day, night after night. Picture the family having to face the death of their child. The strain on the family usually ends in burnout; for even the strongest family, it is too much.

Now picture the same family in a beautiful home, restful rooms, peaceful gardens and play areas designed especially for children who are medically complex. A place where parents have confidence in the medical expertise of the staff and peace of mind knowing their precious child will be safe and happy.

Welcome to The Darling Home for Kids,

one of three centres in Ontario to offer pediatric respite and hospice care in a home-like environment.

Located in North Halton, The Darling Home for Kids was constructed to be a support for families with children who are medically complex. Our caring and professional staff engages children in stimulating activities while their parents take a short-break to rest, recharge and reconnect with one another.

Whether its for the day, overnight or a weekend, The Darling Home for Kids will be here for families when care is needed most.

"What does The Darling Home for Kids mean to our family? Several times a year it allows us time to recharge our batteries, it allows us to stay up a little later and sleep in a little longer. It allows us to give 100% of our time and energy to our other children. It also prepares us to face any curve ball that Cerys' health throws at our family, and tackle it head on."

Sian, Cerys' Mom
