# Meet artist Barbara Ariss-Stroh-Wasser

Georgetown artist Barbara Ariss-Stroh-Wasser takes a retrospective look at her body of work in an exhibit, *Stepping Forward from a Ten Year Retrospective*, now on in the Holcim Gallery at the Milton Centre for the Arts.

The exhibit features selected creations that were selected for juried art shows or special events, such as the bi-annual The Toronto Clothing Show, The Birmingham Symphony/England promotions, the 25-year celebration, Lake Shore Arts, Toronto, The Smith Zone Exhibit and 20-hour piano fundraising by composer Frank Horvath, just to name a few.

Residents are invited to visit the exhibit during Box Office hours any day until Sunday, Oct. 19. Ariss-Stroh-Wasser will host a closing reception on Sunday, 2-4 p.m. with refreshments and conversations with the artist and friends.

Ariss-Stroh-Wasser was born in Eastern Europe, educated in Western Europe and came to North America through marriage, where she raised two sons with her husband, and where she worked as an educator, designer and visual artist.

She describes herself as conceptual artist, transforming ideas into images. She is known for her vibrant images, as well as her black and white creations in minimalism or abstractions.

Today, her visual art work is presented in galleries, in group shows and in solo exhibits in North America, Europe, Australia and Singapore. Her work is featured in private homes and in corporations across the globe.

Her recent successes include the purchase of more than 30 paintings by the Frame Society Galleries in Singapore, and the purchase of 15 pieces of the 2013 exhibit "Global Brain, Individual Brain" by a corporate sponsor for the Laurier Milton Education Village Innovation Centre.

Classes will run in four week blocks, Tuesdays, 6:30-9 p.m. or Thursdays 10 a.m. to 12:30 p.m. The class structure will leave a lot of flexibility for exploring different directions and topics that may arise from individual student needs, interests and creativity.

**Did you think incontinence was just a "woman's issue"?**

Learn how physiotherapy can help men with Pelvic Health, including incontinence and pain after prostate surgery.

Incontinence can be dramatic following prostate surgery or radiation treatment. Men are alarmed by the immediate decrease in their quality of life that comes with being reliant on urinary pads throughout the day.

**Did you know?**  
 The scientific research clearly shows that men who receive physiotherapy BEFORE and AFTER prostate surgery gain control of their bladder quicker.
