Regal Lighting Designs

Tom Herstad, the owner of Regal Lighting Designs has been lighting up Halton Hills for over eleven years and has a new office at 115 Main St. S. They are LED lighting designers in exterior/interior/landscaping and a LED lighting product provider for residential/commercial and industrial areas. To assist with energy savings, they facilitate government rebates for their retail, commercial and industrial customers.

They provide concepts that revolutionize the approach to lighting with different beam patterns, intensities and lighting ideas. "When you control the lighting in this way, you control where people look, what they experience and what they will remember" says Tom, all while offering safer, energy efficient and environmentally responsible quality LED products.

Their unique approach to lighting has been sighted in the Canadian Homes & Gardens, The Toronto Star, The Toronto Sun, Revive magazine, HOSS Magazine, Forum Magazine and the Ottawa Citizen. Not to mention, their television debut on HGTV shows "Decked Out" with Paul LaFrance and Mike Holmes' "Ultimate Garage"!!

Locally, they have converted the Co-Operative insurance building and HealthNut to their LED products and in both cases have reduced the electricity consumption of lighting products by 88%!

"LED is the future of lighting, but it's not tomorrow, it is today" so give them a call and they would be happy to meet with you.
