

Flu outbreak closes Bennett Centre to visitors

A respiratory outbreak at the Bennett Health Care Centre in the past week has forced the facility to be closed to visitors.

Operated by Halton Health Care Services, the Bennett Centre announced last week that its 66 residents would not be receiving visitors, with exceptions, until further notice due to the spread of the Influenza A virus, which was confirmed by Halton

Region's Public Health office.

"For your health and the health of our residents, we ask that you refrain from visiting unless it is an emergency for any resident residing in the Bennett Centre," a release stated.

For updates on the condition of "loved ones" and the status of the visiting ban, call 905-873-0115.

STUCK NOZZLE

Firefighters responded to the report of a gasoline leak in the area of Guelph St. and Rexway Dr. on Wednesday, Jan. 21, around 9 p.m. A resident was pumping gas and the nozzle stuck in the open position spilling approximately 10 to 20 litres on the ground.

Fire staff covered the spill with absorbant, which was going to be cleaned by the gas station attendant according to their protocols. A lock was placed on the pump to prevent

any future spills until it can be repaired.

BATTERY ASSIST

Halton Hills Fire Department responded to a public assist on Sutcliffe Lane around 8 p.m. on Thursday, Jan. 22. On scene staff met with the homeowner who advised that both his smoke detectors were beeping intermittently like the battery was low. Staff checked the batteries and both were installed backwards. Reinstalling the batteries corrected the problem.
