... Lend Me Your Ears

CUSTOMER SERVICE IS A PRODUCT SLOWLY BECOMING EXTINCT.

My definition of quality customer service and goal is to provide continued, effective hearing for the patient. There are many issues and parts of this task - please do not think I am saying that I have succeeded in creating an A+ practice. It takes a lot of work, dedication and time to achieve excellence. Regardless of business, it all boils down to customer service. The product purchased - and this can relate to any device - needs to be serviced regularly, the patient needs to understand and use their product properly. Wherever you shop, ask yourself this: Can I follow up with the same person who sold and serviced my product when I need them? Does the person who serviced you remember your name and needs? Will that person be there for me in the future?

As a local business person and proud lifelong resident of this community, I wish to thank all who have allowed me to serve the community since 1992.
