

Cruze control: success paves the way for next generation

Chevrolet Cruze, the brand's best-selling car around the world, has surpassed 3.5 million global sales, a milestone that comes as Chevrolet prepares to introduce the next-generation Cruze on June 24.

Cruze is sold in 115 countries. The top global markets include China, the United States, Brazil and Canada.

The 2016 Cruze will build on

the current model's success, aiming to elevate the segment with more of the features increasingly important for today's compact car buyers.

It will be larger yet lighter than the current model, with new technologies, new powertrains and additional available safety features that will bring a higher level of sophistication to the compact car segment.

ment.

The 2016 Cruze joins the all-new Chevrolet Volt, Spark, Malibu and Camaro, all unveiled earlier this year.

These five new vehicles will bring 25 new technologies to the brand, most to improve safety, fuel economy, performance and connectivity for the customer.

The 2016 Cruze will be one of the first Chevrolets to offer

Android Auto and Apple CarPlay.

Blue Bird runs again

This year celebrates the 90th anniversary of Sir Malcolm Campbell achieving a new World Land Speed record of 150 mph at Pendine Sands, South Wales, in his 350 hp Sunbeam.

Ninety years to the day, the National Motor Museum, Beaulieu, is marking the occasion with a commemorative low-speed demonstration run with the Sunbeam, back at Pendine Sands.

The run will take place at 4 p.m. on July 21, starting from the area of the beach adjacent to the Pendine Museum of Speed.

Spring Cleaning?

We want your Scrap Cars!

We tow them FREE of Charge!
We pay for your scrap metal
We donate them to the local fire department for them to practice with and then 100% recycle them when they are finished with them.
