

SUMMER ROAD TRIP?

5 ESSENTIAL CAR CARE TIPS

Summer Car Care Directory

Hit the brakes

Your most important safety feature should be checked and serviced at least 2 weeks before your trip.

Kick the tires

Check tire treads for wear and tear and inflation pressure. They may need replacing and balancing.

Cool it

Fully functioning air conditioning is essential if you're heading on a road trip. Air-Condition systems need recharging with gas & lubricant every 2 years.

Radiating heat?

Can your engine take the heat? Avoid overheating at the roadside by replacing coolant & servicing the radiator.

Be prepared!

Don't forget the emergency kit, first aid kit and spare tire... just in case.

We do ALL Automotive Maintenance
QUIK AUTO REPAIR
