Afterwards, we'll stop for lunch at a local eatery (optional). Bring adequate water/snacks and bug repellent. Hike Leader: Angelika 905-877-7805 asgk.canada@sympatico.ca.

ONTARIO GOVERNMENT NOTICE NOTICE OF STUDY COMPLETION

**Highway 401 Regional Road 25 Underpass, 5th Line Overpass and Oakville Creek West Branch Overpass Structural Replacements, Towns of Milton and Halton Hills
DB-2014-2009**

THE STUDY

The Ontario Ministry of Transportation (MTO) has retained a Design-Build Team consisting of Brennan Paving & Construction Ltd. (BPCL) and Morrison Hershfield Limited (MH), to complete a Detail Design, Class Environmental Assessment Study and Construction for the replacement and widening of the following Highway 401 structures: Regional Road 25 Underpass (Site 10-056); 5th Line Overpass (Site 10-073/1&2); and Oakville Creek West Branch Overpass (Site 10-074/1&2). Please see adjacent map.

Regional Road 25 Underpass

During construction all interchange ramps will remain open, except during permitted hours of closures. In addition, pedestrian traffic will be maintained at all times. One full closure of Highway 401 and Regional Road 25 will be required for a period of 18 hours, commencing from 7:00 p.m. on a Saturday night to 1:00 p.m. on Sunday to remove the existing structure. Advance notice of the closure will be provided.

5th Line Overpass and Oakville Creek West Branch Overpass

The existing structures will be replaced concurrently and will accommodate the ultimate eastbound and westbound express and collector configuration along Highway 401. Pavement widening of the westbound lanes on the north side in the vicinity of 5th Line and Oakville Creek West Branch for approximately 1.2 km will be required to accommodate traffic detouring. Nightly lane closures on Highway 401 will be permitted to facilitate the work. 5th Line will be intermittently closed to vehicular traffic during construction, with 6th Line as the detour route during this closure.

The ultimate 12 traffic lane configuration of Highway 401 previously received EA approval and is documented in a Transportation Environmental Study Report titled "Highway 401 Improvements from Trafalgar Road to Regional Road 25 Study (March 2013)".

THE PROCESS

The study has followed the approved planning process for a Group 'B' project in accordance with the *Class Environmental Assessment for Provincial Transportation Facilities, 2000* (Class EA). A Design and Construction Report (DCR) has been prepared which includes a summary of the detail design study and environmental assessment process undertaken for this project, existing environmental conditions, and the mitigation measures developed to address environmental concerns. The DCR will be available for public review on **September 1, 2015** for a period of 30 days until **September 30, 2015**.

The DCR will be available for viewing at the following locations during normal business hours:

Ministry of the Environment and Climate Change
Central Region
5775 Yonge Street, 8th Floor
Toronto, ON M2M 4J1

Ministry of the Environment and Climate Change
