

# Fire calls

Halton Hills firefighters responded to the report of a natural gas smell on Elizabeth Dr. in Acton on Nov. 30. On scene crews checked the building using the multi-gas detector and found zero readings. It was determined that the smell was from garbage cans.

On Dec. 10, HHFD responded to a report of a vehicle fire on Trafalgar Rd., south of 10 Sideroad. On scene, the vehicle could be identified as a large cube truck that was fully engulfed in smoke. Small flames were periodically visible underneath the cab of the vehicle. There was a significant amount of oil leaking from the vehicle onto the

ground below and the heat from the exhaust was causing it to ignite periodically. Fire crews turned off the vehicle's engine and the smoke dissipated immediately. The oil continued to leak but there was no more flame. Public Works was contacted to attend the scene with sand and prevent further spread of oil into the nearby ditch. Halton Regional

Police remained on scene for traffic control.
