PETS

UCHS Shrek an independent, lively boy

JUDITH-ANNE KOLU

Shrek arrived at UCHS on December 28 last year, as a transfer from another facility that deemed him unadoptable. He did need some tender loving care and has undergone full dental work (via Trooper's Fund), and is now fully vaccinated, microchipped and neutered.

Shrek is an attractive brown tabby with white accents, compact shape who hides his age well. Shrek looks much younger than his nearly 10 years but is proud that he will be afforded a "special fee arrangement" to help get him rehomed.

Shrek has tons of energy. He is the first to come forward to greet visitors, he enjoys reserved petting, and is ever ready for treats! Down time will find him having snoozes by the window in a warming sunbeam. Shrek will need an adult, quiet home as he would not enjoy

Shrek

the fussing of small children. He is adverse to being picked up and hauled about.

Shrek enjoys life on his own terms and might do best as an only cat. Staff say he loves to "rule the room" and is clear in his intent. Shrek doesn't mind being left alone with his thoughts, ideal for a home or maybe

even a shop where he would have pride of place, but would be equally happy when alone.

For more information on Shrek, call the shelter at 519-833-2287 or email info@uppercredit.com for an introduction and to learn more about his fee special arrangement.

NHKR Music timid, but loving cat

BARB JOHNSON

This tiny colourful girl will be a year old in February. Music came into NHKR foster care as a scared bewildered cat. Her reactions, once inside a home, indicated she had no or very restricted house experience. It has taken months for Music to settle in to become comfortable and enjoy living indoors.

She is very clean with her litter box, does not want to go back outdoors and uses her scratching posts and climbers.

Music absorbs attention: she craves neck scratches and long strokes down her back, but is still hesitant about asking to be noticed. If she is approached quietly, Music will stay for stroking and enjoy it all. If she thinks

Music

harm is intended, she will run, but not far, and she comes back. She is accepting more handling as she settles in, even allowing short durations of being picked up and cuddled.

Music is passive with other cats and is accepted by them with no aggression. She allows their company but does not seek

them out for bonding.

Music will be available for adoption this Saturday at Pet Valu, 375 Mountainview Rd. S. from 2 to 4 p.m. The \$160 cash adoption fee includes vaccinations, parasite treatments, neutering, microchip and a bag of food. For more information visit www.nhkr.ca or call Barb 905-873-8547
