

# Volunteers needed for Mississauga gaming expo

Canada's largest gaming convention returns to Mississauga March 9 to 11 with 15,000 enthusiasts expected to descend on International Centre's Hall 5.

EGLX debuted in 2016 to rave reviews and 12,000 attendees and is back for a gathering of Canadian gaming communities.

Student designers, board gamers, Indie developers, eSports celebrities, gaming shops, arcade aficionados, cosplayers and Youtubers are among those on hand for the weekend. High school students looking to accumulate volunteer hours can contact Martin Omes at [momes@gamersoutreach.org](mailto:momes@gamersoutreach.org).

**... Lend Me Your Ears**  
By Cory Soal R.H.A.D.

**FOOD ALLERGIES MAY CAUSE EAR INFECTIONS**  
If your child suffers from frequent ear infections, and you can't pin point the cause, it may be something he/her ate. It's recently been found that food allergies may trigger ear infections, which left untreated can cause hearing loss.

The allergies create mucous congestion in the nose, which then flows into the tube connecting the nose to the ears. Eventually the tube gets blocked and infection causing bacteria grow.

To determine if food allergies are causing your child's ear infection have him/her tested. Once the troublesome food is discovered your physician can suggest alternatives. And take heart, kids often outgrow food allergies – and their tendency towards ear infections.
