ONE LUCKY WINNER WILL HAVE THE CHANCE TO CHOOSE THEIR FAVOURITE TOUGH TRUCK

PRIZE VALUED AT \$40,000

CONTEST OPEN MAY 1ST TO AUGUST 1ST, 2018

HOME & GARDEN

Extend the lifespan of your garden tools

Shears, rakes, weeders, hoes, hedge trimmers, shovels, trowels — taking care of your landscaping requires quite a bit of equipment. Read on to find out how you can keep your garden tools in prime condition for as long as possible.

Clean

Soil, water, resin and sap can all damage your garden tools, especially those with metal blades. Get rid of any residue with soapy water or an alcohol-soaked cloth. To get rid of rust, rub the surface with fine-grain sandpaper.

Sharpen

Keep your blades nice and sharp by regularly honing them with a metal file. Be careful to follow the angle of the blade. Don't use a grinder; it removes an unnecessary amount of metal.

Repair

If the screws, nails or springs in your tools are unstable (or have fallen out), tighten them or replace them without

delay. Gently sand your tools' wooden handles from time to time to avoid getting splinters.

Protect

Use a protective oil (such as flaxseed oil) on the metallic components of your tools. Make sure the surfaces are perfectly clean before applying the oil. This will keep your blades sharp and prevent rust.

Store

Finally, keep in mind that it's important to store your garden tools in a dry, well ventilated area. Place them blade-side up to avoid moisture accumulation.

Happy gardening season!
