

Dr. Caroline Teske & Associates - Optometrists

Eyes Focused on You

WE'RE BACK TO SCHOOL!

Time for an eye exam and a lesson on Vision Therapy!

Dr. Caroline Teske

It's Back to School time! Are you ready?

A new school year is an exciting time for a child. It's also the ideal time to have your child's eyes examined by an optometrist.

Dr. Teske and Associates are participating Eye See...Eye Learn® optometrists.

At Eyes Focused on You, we work to provide the information and assistance our patients need to take charge of their health and the health of their families.

It's important to know that annual, comprehensive eye exams are essential for children because 80% of learning is acquired through vision. If your child is struggling in school, a vision processing problem could be the cause. Fortunately, vision processing problems can be treated with an optometric discipline called Vision Therapy...

Dr. Kari Stashuk

Introducing **FOCUS VISION THERAPY**

~ Our New **VISION THERAPY** Clinic!

Vision Therapy is now an important new offering at Eyes Focused on You through our recently opened clinic, **FOCUS VISION THERAPY**. This new practice enhances our scope of care and demonstrates our commitment to patient wellness and our holistic approach to the treatment of eyes, mind and body in an integrative health care model. Behavioral optometrists are trained to help correct or improve a number of vision challenges. These include strabismus (crossed eyes), amblyopia (lazy eye), concussion-related problems and perceptual-motor abilities. Vision therapy can also enhance sport performance and coordination and focuses on posture, body and spatial awareness. The body is connected and the eyes are an extension of the brain! That is how vision therapy makes a difference.

Better
TOGETHER
MAKING PATIENT CENTERED CARE HAPPEN!
