

# Thank you!

Providing services on behalf of

**ServiceOntario**

After operating our Georgetown ServiceOntario centre for the past eight years, we have informed the Ministry of Government Services of our intention to terminate the contract as the private Service Provider for this office.

We have been proud to operate this office in the community in which we live in, and we thank the thousands of customers, friends, and acquaintances who, over the years, commented on our great service and were awe-struck that they were promptly served when they walked into an office with no other customers inside.

As a corporate citizen, it was our pleasure and honour to sponsor sixteen local youth hockey teams over the years; in conjunction with the other ServiceOntario offices we currently operate, we matched our customers' donations and gave \$5000 towards the families and first-responders of the Humboldt hockey tragedy.

We thank you for your patronage.

We will say our final good-byes on February 15, 2019.

Lori and Alex
