

Halton Highlights July 2019

We are building a better Halton

Halton continues to be a great place to live, and residents rely on us to keep pace with growth—to keep traffic moving, keep communities safe and keep providing high-quality services. Whether we are widening roads, installing new bike lanes or maintaining dependable access to clean drinking water, we are building a better Halton for you today and tomorrow.

You can stay connected on construction happening in your community, along your commute or where you visit from your phone, tablet or computer by:

using our new online interactive map to see all active construction projects happening across the region

signing up to get timely updates on construction projects right to your email inbox

checking out our updated project webpages for the latest information

emailing accesshalton@halton.ca or calling 311

Thank you for your patience as we continue to improve your community!

Put waste in its right place!

Participating in waste programs like the Blue Box and Green Cart is a great way to reduce community waste. Collectively, Halton residents diverted more than 131,750 tonnes of waste from the landfill in 2018. One of the ways to continue to improve our diversion rate is making sure that we are all putting waste in the right place. Did you know that mixing food waste with recyclables or putting garbage in the Green Cart can limit the ability to turn waste into new products and resources?

To quickly and easily understand what goes where, visit halton.ca to find waste tips and use the Put Waste in its Place sorting tool.

Blue Box

Plastic bags

Plastic plant pots and trays (clean/no dirt)

Metal pots, pan and baking sheets

Green Cart

Shredded paper

Paper towels, tissues and napkins

Paper and cardboard items with food residue

Garbage

Styrofoam

Metal and plastic hangers

Chip and candy bag wrappers

Keeping you informed by highlighting what makes Halton a great place to live.

Gary Carr, Regional Chair

Protect your health and stay safe this summer

Halton Region offers resources and services to help you protect your health and stay safe while enjoying the warm weather. Visit halton.ca to:

sign up to receive email alerts when a heat warning or air quality advisory is issued

find the latest beach water quality results for public beaches in Halton

get safety tips for preventing tick and mosquito bites and find the latest surveillance information

find tips to prevent foodborne illness while preparing food

By practising safe behaviours, you can help protect the health of our community. For more information about the Region's summer safety resources and services, visit halton.ca or call 311.

Meetings at Halton Region

1151 Bronte Rd., Oakville, L6M 3L1

Visit halton.ca for full schedule.

July 10 9:30 a.m. Regional Council

Please contact us as soon as possible if you have any accessibility needs at Halton Region events or meetings.

This page has been donated by this newspaper to communicate important information to Halton residents at no cost to taxpayers.
