A historic Halton Hills church plays a role in a recently released Netflix movie.

Let It Snow, a Christmas-themed romantic-comedy, while set in Laurel, Ill., was filmed in a number

of small towns in southern Ontario, including Georgetown.

The Union Presbyterian Church (16789 Main St.) is the setting for a part of the movie.

Based on a novel of the same name written by three authors: Maureen Johnson, Lauren Myracle, and

John Green, the movie follows three different groups of teenagers on a cold and snowy Christmas Eve.

Starring Isabela Merced (*Transformers: The Last Knight*), Shameik Moore (*Spider-Man: Into the Spider-Verse*), and Kiernan Shipka (*Mad Men*), the film was released on Netflix on Nov. 8.

Based on nine reviews, *Let It Snow* has an approval rating of 78 per cent on Rotten Tomatoes.

Q: How can I stay Healthy This Fall?

A: According to Chinese Medicine, the autumn season is linked with the Metal element, the Lung organ system and the emotion of Grief. Here are some tips to encourage your health this Fall:

Make a **list of priorities** for you and your family, as fall heightens our innate ability to get stuff done.

Wear a scarf in order to protect the neck at this time of year.

As the weather turns cold and the wind picks up, the Lung organ is extra vulnerable to viruses and pathogens.

Stay hydrated as dryness is common in fall including dry skin, rashes, and constipation. Drink lots of water and keep your skin moisturized and protected.

The emotion associated with fall is **grief**. It's a good time of year to reflect on unresolved sadness and grief, and then try to let it go. Fall is a nature's reminder to let things go.

Eat warm, cooked food. Trade the salads in for oven-roasted veggies over brown rice. When cooking, add onions, ginger, garlic or mustard—these pungent foods are known to benefit the Lung organ.

Get Acupuncture if you are susceptible to colds, flus, Lung conditions, or depression at this time of year.

Wishing you a happy and healthy Autumn.
